

LAG O-3-42 3 ASSER SEMIE HYDRAULISCH GESTUURD 2 ASSEN

Características generales

Marca	LAG
Subcategoría	Semi-góndola rebajada
Matrícula	OL-69-SG
Año de construcción	2012
Fecha de primera inscripción	26-06-2012
Color	Naranja
Condición	Usado
Estado general	Muy bien
Referencia	1790762

Propiedades

Peso individual	9.590kg
Capacidad de carga	32.410kg
Peso bruto vehicular	42.000kg
Longitud	1.204cm
Ancho	255cm

Especificaciones técnicas

Número de ejes	3
----------------	---

Descripción

OFFER ## 3-Axle Air Suspension Semi Low Loader with 2 Hydraulic Steering Axles ### General Information We are pleased to offer this high-quality and exceptionally robust **3-axle semi low loader**, specifically designed for the professional transport of heavy machinery, construction equipment, agricultural machinery, containers and other oversized loads. Equipped with **2 hydraulically steered axles** and the renowned **TRIDEC hydraulic steering system**, this trailer offers outstanding manoeuvrability, excellent driving stability and significantly reduced tyre wear. The trailer is in a very neat and well-maintained original condition and is ready for immediate operation. --- # Technical Specifications **Type:** 3-Axle Semi Low Loader **First Registration:** 26 June 2012 **Axles:** 3 **Suspension:** Full Air Suspension **Steering:** 2 Hydraulically Steered Axles **Steering System:** TRIDEC Hydraulic Steering System **Container Locks:** Complete with Twistlocks --- # Weights **Gross Vehicle Weight (GVW):** 42,000 kg **Unladen Weight:** 9,590 kg **Payload:** 32,410 kg --- # Dimensions ### Gooseneck * Length: 490 cm ### Loading Platform * Length: 695 cm The spacious loading platform is perfectly suited for transporting excavators, wheel loaders, cranes, aerial platforms, agricultural machinery, containers and other heavy equipment. --- # Equipment * 3 heavy-duty axles * Full air suspension * 2 hydraulically steered axles * Original TRIDEC hydraulic steering system * Complete with container twistlocks * Heavy-duty high-strength steel chassis * Excellent weight distribution * Low loading height * Outstanding road stability * Durable European construction * Easy maintenance * Ready for immediate use --- # Advantages This professional semi low loader combines a high payload with outstanding driving characteristics. The **TRIDEC hydraulic steering system** and the **two hydraulically steered axles** provide exceptional manoeuvrability, making the trailer ideal for confined construction sites, industrial facilities and heavy haulage operations. At the same time, the steering system considerably reduces tyre wear, lowering operating costs. The full air suspension ensures maximum driving comfort, excellent load protection and superior stability under all operating conditions. Thanks to the integrated twistlocks, the trailer can also be used for transporting various container sizes, making it an extremely versatile transport solution. --- # Applications Perfectly suited for transporting: * Excavators * Wheel loaders * Mobile cranes * Aerial work platforms * Agricultural machinery * Road construction equipment * Industrial machinery * Steel structures * Containers * Heavy and oversized cargo --- # Summary This **3-axle air suspension semi low loader** with **2 hydraulically steered axles** and the **TRIDEC hydraulic steering system** represents an excellent investment for companies involved in heavy transport
