

Bomag BM 2200/75 ASFALTFREES / ASPHALT MILLING MACHINE / COLD PLANER

General features

Brand	Bomag
Subcategory	Asphalt cutter
Date of first registration	01-07-2017
Hourmeter reading	3914
Color	Yellow
Condition	Used
Fuel	Diesel
Emission class	stage_4
Reference	011006
CE marking	Yes

Characteristics

Empty weight	37.900kg
Length	895cm
Width	250cm
Serial number	101888011006
Cylinder contents	15.600cc

Bomag BM 2200/75 ASFALTFREES / ASPHALT MILLING MACHINE / COLD PLANER

Technical specifications

Drive	tracking
Engine output	760hp

Description

The BOMAG BM 2200/75 cold milling machine has a standard working width of 2200 mm (86.6 in), a maximum milling depth of 351 mm (13.8 in), and an engine with 567 kW (760.3 hp). Its operating weight is approximately 37,900 kg (83,555 lbs) and it features a hydraulically folding conveyor belt for easier transport. Key specifications: Engine: 567 kW (760.3 hp) MTU Milling Width: 2200 mm (86.6 in) Maximum Milling Depth: 351 mm (13.8 in) Operating Weight: 37,900 kg (83,555 lbs) Operating Speed: Up to 70 m/min Travel Speed: 7.5 km/h Transport Height: 3.85 m Transport Width: 2.5 m Transport Length: 8.95 m Features and capabilities High-production design: Suitable for large-scale projects like highways and airport runways, but can also be used for smaller jobs due to its maneuverability. Maneuverability: Equipped with all-crawler steering and crab walk, with a 120° conveyor belt swivel angle for flexibility. Maintenance: Features a maintenance-free BMS 15 tool holder system and a hydraulic folding conveyor belt for easier transportation. Auxiliary power: An auxiliary engine provides power for tasks like tool changes and cleaning when the main engine is off.
