

Hiab LAAKRAAN X-HIPRO 358 E6

General characteristics

Brand	Hiab
Subcategory	Loader crane
Year of construction	2020
Condition	Used
General state	Good
Reference	1790809

Description

HIAB X-HIPRO 358 E-6 COMPLETE TRUCK-MOUNTED CRANE – 6X HYDRAULIC EXTENSIONS – RADIO REMOTE CONTROL Very clean and complete **HIAB X-HiPro 358 E-6 loader crane**, year **2019**. The crane is equipped with **6 hydraulic extensions** and additional **5th and 6th hydraulic functions up to the end of the crane**, allowing the use of hydraulic attachments such as a **rotator, grab or other hydraulic tools**. Complete with **radio remote control, hydraulic oil tank, separate rear stabilizer/outrigger set and crane documentation**. GENERAL INFORMATION **Make:** HIAB **Model:** X-HiPro 358 E-6 **Year:** 2019 **Serial number:** 3580234 **Version:** E-6 **Hydraulic extensions:** 6x **Operation:** Radio remote control **Additional hydraulic functions:** 5th and 6th function **Suitable for:** Rotator / grab / hydraulic attachments **Stabilizers:** Rotating stabilizer legs CRANE EQUIPMENT The **HIAB X-HiPro 358 E-6** is a powerful loader crane designed for professional transport, lifting, construction and installation work. Thanks to its **6 hydraulic extensions**, the crane offers an excellent hydraulic outreach. The additional hydraulic functions make this crane particularly suitable for operators who need to work with different hydraulic attachments. Suitable for applications including: - Transport and lifting operations - Construction and installation work - Loading and unloading machinery - Loading and unloading building materials - Operation with hydraulic rotator - Operation with hydraulic grab - Various hydraulic attachments - Installation on a suitable truck chassis RADIO REMOTE CONTROL The crane is equipped with a **HIAB radio remote control**. This allows the operator to control the crane from a safe and convenient position with a clear view of the load and working area. **Complete with battery charger for the remote control.* 5TH & 6TH HYDRAULIC FUNCTION The crane is equipped with additional **5th and 6th hydraulic functions**. This makes it possible to operate various hydraulic attachments directly through the crane, including: **Hydraulic rotator – grab – clamshell grab – stone grab – pallet fork or other hydraulic equipment.** COMPLETE REAR OUTRIGGER SET The crane is supplied with a complete separate **HIAB rear outrigger/stabilizer set**. **Type:** 458-8125 **Year:** 2020 When correctly installed, the additional rear stabilizers provide increased stability during crane operations. HYDRAULIC SYSTEM Supplied complete with: **Hydraulic oil tank** **Mounting brackets for hydraulic tank** **Hydraulic equipment for the crane** **5th and 6th additional hydraulic functions** This means that many of the important components required for installation on a suitable truck chassis are already included. INSPECTION & DOCUMENTATION The crane is supplied with: **Valid ABOMA / TCVT inspection** **Crane documents / paperwork** **Serial number identification** **Radio remote control** **Battery c
