Description

WIESE TA 18 OK – 2-AXLE TANDEM TRAILER – 18 TON – TWISTLOCKS – SAF – AIR SUSPENSION GENERAL INFORMATION **Make:** WIESE **Type:** TA 18 OK **Configuration:** 2-axle tandem trailer **Date of first registration:** 12-05-2021 **Technical GVW:** 18,000 kg **Empty weight:** 4,620 kg **Payload:** approx. 13,380 kg **Number of axles:** 2 **Axles:** SAF **Suspension:** Full air suspension **Brake system:** WABCO DESCRIPTION Very robust and versatile **WIESE TA 18 OK 2-axle tandem trailer**, first registered in 2021 and designed for professional heavy-duty transport. This trailer has a **technical gross weight of 18,000 kg** and an empty weight of only **4,620 kg**, resulting in a payload capacity of approximately **13,380 kg**. The WIESE is equipped with a **fully galvanized chassis**, aluminium side boards, container twistlocks, SAF axles, full air suspension and a WABCO braking system. A very practical and multifunctional trailer, ideally suited for transport companies, crane companies, construction companies, machinery dealers and other professional users. CHASSIS & AXLES Heavy-duty tandem chassis equipped with: * **2-axle tandem configuration** * **SAF axles** * Full **air suspension** * **WABCO braking system** * Technical GVW of **18,000 kg** * Heavy-duty professional chassis * **Fully galvanized construction** * Excellent corrosion protection * Low-maintenance design * Excellent stability during transport The combination of SAF axles and air suspension provides excellent road handling and stability, even when transporting heavy loads. LOADING PLATFORM & BODY The trailer is equipped with a versatile loading platform featuring: * **Aluminium side boards** * **Twistlocks for container transport** * Heavy-duty loading platform * Fully galvanized subframe and chassis * Suitable for various types of cargo * Designed for intensive professional use Thanks to the integrated **container twistlocks**, this WIESE trailer is particularly suitable for transporting compatible containers and container bodies. The aluminium side boards also make the trailer ideal for transporting machinery, pallets, construction materials and various other loads. DIMENSIONS **Length:** approx. 6,600 mm **Width:** approx. 2,550 mm **Loading height / height:** approx. 950 mm The relatively low loading height of approximately **950 mm** provides a favourable centre of gravity and makes loading and unloading easier. STAINLESS STEEL TOOLBOXES This trailer is very well equipped with: **4x stainless steel toolboxes** Providing plenty of secure storage space for: * Lashing straps * Chains * Securing equipment * Tools * Container equipment * Transport accessories The stainless steel construction is durable, weather-resistant and ideal for intensive daily use. SUPPORT LEGS For safe and practical operation, the trailer is equipped with: * **Rear support legs** * **Front support leg for uncoupling and parking** The rear supports provide additional stability during
